

Literacy Skills Quizzes

Created for selected books, Literacy Skills Quizzes allow educators to assess how students are progressing in 24 specific skills in four key areas: initial understanding, inferential comprehension, literary analysis, and constructing meaning. Teachers will be able to target instruction so students will be able to master state and district standards.

Questions on Literacy Skills Quizzes are randomly generated from a 36- or 60-item bank. The item bank approach is used because there is ample content from which to draw in the books chosen for Literacy Skills Quizzes. Most quizzes contain 12 questions drawn from a 36-item bank. Due to the item bank technology, Literacy Skills Quizzes can be taken up to three times. For best results, teachers are advised that the best time for students to take Literacy Skills Quizzes is after they have taken the Reading Practice Quiz for the book.
